PLANNING AND ZONING BOARD FACTORS OF ANALYSIS

(1) Future Land Use Map Amendment Factors of Analysis

- (a) Whether the proposed amendment will have a favorable or unfavorable effect on the city's budget, or the economy of the city;

Applicant Response:

N/A

- (b) Whether the proposed amendment will adversely affect the level of service of public facilities;

Applicant Response:

N/A

- (c) Whether the proposed amendment will adversely affect the environment or the natural or historical resources of the city or the region as a result of the proposed amendment;

Applicant Response:

N/A

(d) Whether the amendment will have a favorable or adverse effect on the ability of people to find adequate housing reasonably accessible to their places of employment;

Applicant Response:

N/A

(e) Whether the proposed amendment will promote or adversely impact the public health, safety, welfare, or aesthetics of the region or the city;

Applicant Response:

N/A

(f) Whether the requested amendment is consistent with all elements of the Comprehensive Plan and established Levels of Service.

Applicant Response:

N/A

(g) Whether the request maximizes compatibility (consistent with the definition found in [Florida Statutes 163.31649](#)) between uses;

Applicant Response:

N/A

(h) Whether the request provides for a transition between areas of different character, density or intensity;

Applicant Response:

N/A

(i) Whether the request relocates higher density and intensity uses in areas which already feature adequate vehicular access and access to public facilities; and

Applicant Response:

N/A

(j) Whether the request has potential for creating land use inequities per Policy FLU – 1.12A of the Comprehensive Plan.

Applicant Response:

N/A

(2) Zoning Map Amendment Factors of Analysis

(a) The applicant's need and justification for the change and whether it aligns with the community's current or future needs;

Applicant Response:

The proposed change aligns with the community's current and future needs by establishing consistency with City of Palm Bay 2045 Comprehensive Plan.

- (b) The effect of the change, if any, on a particular property and surrounding properties;

Applicant Response:

The change in zoning has no impact on the surrounding properties. The SF-1 and RS-1 Zoning District regulations are nearly the same. The subject site is the only parcel within the city limits assigned to the SF-1 zoning classification. Elimination of the SF-1 zoning will rid the LDC of redundancies between the two districts; however, the allowable uses remain consistent with what is currently permitted. Surrounding properties would be affected no differently than they are today.

- (c) The amount of existing undeveloped land in the general area of the city having the same classification as that requested;

Applicant Response:

There are no other parcels with RS-1 zoning in proximity to the subject site; however, the rezoning will allow the current owner to retain current rights, including permitted uses, lot requirements, and other development regulations. Surrounding properties would be affected no differently than they are today.

- (d) Whether the proposed amendment furthers the purpose of the city's Comprehensive Plan, or other strategic plans applicable to the proposed development and the provisions in the Land Development Code;

Applicant Response:

The Future Land Use designation of the property is consistent with the proposed zoning.

- (e) Whether the requested district is substantially different from that of the surrounding area; and

Applicant Response:

The proposed rezoning is not substantially different from the existing zoning; therefore, the character of the area will remain essentially the same. Although the zoning classification will change, the proposed rezoning will have a "net zero" effect on the surrounding area.

- (f) Whether the request provides for a transition between areas of different character, density or intensity.

Applicant Response:

The proposed rezoning is not substantially different from the existing zoning; therefore, the character of the area will remain essentially the same. The request provides for a transition between areas of different character, density, or intensity.

Please note: You may add supplemental information or documents to this form for consideration.
