Bert J. Harris Private Property Act	False
Size of Area (acres)	
Exemption Type	
Site Section for Exemption	
Americans with Disabilities Act	False
How Variance Meets Sec. 169.009	The variance meets section 169.009 of City code as follows: (B) (1) Special conditions and circumstances exist which are peculiar to the land, structure or building involved, and which are not applicable to other lands. The property is unique in it's size being XX acres, the school is an allowable use in the zoning, and the zoning allows for two-story. However a modern two-story classroom building with today's technology needs a little more
Sections of Zoning Ordinance	185.042 (F)(6)
Minimum Requested Distance/Height	The minimum rear and side setbacks per code are 25' and 10' respectively, and we are proposing over 110' and 219' respectively. That is over 4 times and 20 times what is the minimum required to increase buffering.
Intended Use of Property	Intended use of the property is public charter school grades Kindergarten through 8th.
Extent of Proposed Variance	The variance requested is the minimum required for a modern two-story school building and is less than a 20% variance.
