NAEMSP

Did you know NAEMSP has a Political Action Committee (PAC)?

The NAEMSP PAC is a member-supported advocacy effort. Since NAEMSP's inception nearly 40 years ago, we have sought to enable the best possible care for our patients while also fostering the growth and advancement of our profession, both domestically and globally. National associations across all disciplines such as educators, hairdressers, and fire fighters utilize well-funded PACs to further their goals - and we are poised to do the same.
