CITY OF PALM BAY:

GRADE CROSSING MATTERS

N.E. PALM BAY ROAD – MP 197+2443' – DOT# 272147A

NOTICE OF INTENT

Mr. Valentino Perez
Director of Public Works
City of Palm Bay
120 Malabar Road
Palm Bay, FL 32907

Dear Mr. Perez:

This is in reference to the FEC notification letter dated July 1, 2023, listing the crossings scheduled for maintenance in the year 2024. The above-referenced grade crossing has declined to the point of requiring said maintenance. The Railway or our contractors will perform all work associated with the crossing to include maintenance of traffic and paving. We have scheduled this work to begin on **June 30, 2024**.

In accordance with the terms of the agreement dated July 1, 1972, the cost of the crossing maintenance is the responsibility of the CITY. The costs to the CITY are as outlined in the enclosed estimate, however this is an estimate only and all charges for which the CITY is responsible shall be billed on an actual cost basis. Additionally, the CITY will be responsible to replace the traffic loop sensors if they are damaged during construction. If this occurs, the new sensors must be installed behind the crossing warning device gate arm to better protect them during future crossing maintenance.

I have included the enclosed estimate for your reference and review. Upon completion, FEC will invoice the actual cost for this work. If there is a specific account or tracking number you wish to be included or noted with this invoicing, please provide that information at your earliest opportunity prior to this invoicing. In the interim, our Contractor, Gonzalez and Sons, will be in contact to coordinate the scheduling of the work. Otherwise, if you have any questions in this matter, please do not hesitate to contact me at (904) 279-3196.

Sincerely,

Daniel Fetahovic
Public Projects Engineer

Enclosure
