PUBLIC COMMENT(S)/RESPONSE(S): (Non-agenda Items Only)

Individuals made general comments.

1. Tom Rebman, resident, requested a Council workshop to address HB1365 and how the City was going to implement guidelines, initiatives and provide solutions.

Ms. Sherman advised that staff had been in discussion with the Brevard Homeless Coalition, Brevard County and other municipalities to discuss different strategies based on House Bill 1365. She noted that funding was the biggest issue moving forward.

Chief Augello advised that the Police Department would continue to treat the homeless population with dignity and respect and did not want to just go out and apprehend them. He said a sustainable solution was needed moving forward, not only for the Police Department but for the entire community.

Mr. Johnson wanted everyone involved to do a better job at facilitating resources to accommodate the homelessness issue. He felt a workshop was needed and should be held sooner than later, and asked that nonprofit organizations and churches be involved in the discussion. Councilmembers agreed. Mr. Weinberg suggested sending notices to City partners, nonprofits and churches.

Mayor Medina questioned if there were any legalities or protocols to be followed. Ms. Smith advised that staff was following all required protocols pursuant to law. The goal was to find resources for the homeless, while also respecting private property rights.

There was further discussion regarding various issues to be addressed at the workshop. Council concurred to hold the workshop mid-November.

2. Pat Dalpra, resident, questioned what was being done to correct the problems with sewage dumping as it was flowing into the canals and the Indian River Lagoon. She felt the flooding was getting worse due to new home elevations. Ms. Dalpra also asked if a turn lane was being considered for the new Chipotle location at Emerson Drive and Malabar Road.

Ms. Sherman explained the sewage spill that had occurred was due to a stormwater pipe that had failed but had since been rectified. She confirmed that a turn lane for Chipotle was not being added but intersection improvements would be done in-house by staff.

3. Santa Isabel Wright, resident, said there was no City representation for its multicultural residents that spoke different languages.

Ms. Sherman shared that the City had created a list of volunteers to assist with translating for residents that spoke different languages, including sign language. She noted there was also a new chatbot on the City's website that could translate up to seventy (70) different languages.

Item 1, under New Business, was considered at this time.

1. Consideration of organizations to receive funding through the Opioid Settlement Proceeds Grant.

Staff Recommendation: Award of Opioid Settlement Proceeds Grant funds to eligible applicants as determined by City Council; and authorize the City Manager to execute a Subrecipient Agreement and any subsequent amendments (limited to amendments that do not increase funding award).

Ms. Berardi presented the item to Council. She advised that through the Request for Applications (RFA) process, nine (9) programs were received from four (4) different agencies, and three (3) of those programs were recommended by staff.

Mr. Weinberg wanted to see a greater use of the funding. He felt the applicants were using the monies for a small number of people, except for the Brevard Prevention Coalition. Councilmembers agreed.

Representatives from Brevard Prevention Coalition and Operation New Hope presented their programs to City Council. The representatives responded to questions posed by councilmembers.

Ms. Sherman advised that there approximately \$261,000 in available funding. There was \$37,000 in funding still remaining and, if desired by Council, staff could perform an additional solicitation to specifically target programs that could assist the homeless that were struggling with opioid addiction in the community. Council concurred.

Motion by Mr. Johnson, seconded by Deputy Mayor Felix, to award Opioid Settlement Proceeds Grant funds to Brevard Prevention Coalition (Position Choice, Positive Life Program), Brevard Prevention Coalition (Opioid Use Disorder Treatment and Recovery Support Program), and Operation New Hope (Ready4Work Recovery Support); and authorize the City Manager to execute a Subrecipient Agreement and any subsequent amendments. In addition, the remaining available funding would be used in the current fiscal year. The Planning and Zoning Board recommended denial of the request.

The City Attorney read the ordinance in caption only. The public hearing was opened. Chelsea Anderson, representative for the applicant, presented the request to Council.

Numerous individuals spoke against the request, stating that traffic would be a major concern, especially with the existing merge lane; the intersection was already too congested; and the project would have a negative effect on existing businesses and adjacent neighborhoods.

Chris Walsh, Traffic Engineer representing the applicant, said that they had met with the Florida Department of Transportation (FDOT) to bring the ingress/egress up to current standards. The driveways were moved so that drivers could enter the property without backing up traffic. There was also a much larger and flatter radius coming onto the property. Mr. Johnson felt that the monies should be placed towards organizations, such as weVENTURE, that could assist small businesses in marketing their business instead of putting the money towards a sign for a business. He said it would be a better return on investment.

Mayor Medina said the premise was not only about signage, but to beautify rundown commercial properties throughout the city. He felt this program met what was needed for these properties. Deputy Mayor Felix and Mr. Weinberg supported the program guidelines.
